

Missionaries to Honduras

Mike and Ashley Troxell

November 2014

Vol. 5, Num. 11

We have been truly blessed to be a part of a team of missionaries here in La Ceiba! Over the past three years, people have come and gone but we remain a unified, loving team. There have been recent changes in the leadership throughout Mission to the World including here in La Ceiba. We are excited about what the Lord is doing here and around the world in and through His people.

Pastor Vicente and his family came from another city in Honduras in the spring of 2014 to work with us in a church plant in the neighborhood of Danto. He is a very hard worker and has experience in working in denominations here in Honduras. He loves the Lord and the people he comes into contact with and is holding worship services in his house as well as small groups in the homes of some neighbors.

When we arrived here three years almost three years ago, we were given the job to start a new ministry which would lead to a church plant. We have been working in the neighborhood of La Fe and the Lord has begun a church plant and grown relationships in many amazing ways! In the past six months, Mike's job has evolved and is now more focused on mentoring/discipling our Honduran pastors. We are still continuing the work in La Fe, but our focus has shifted somewhat and we are excited to see where the Lord leads us in the coming months and years!
