The church decorated for the installation service

Join us in rejoicing as pastor Vicente was installed as pastor of a church in the nearby community of La Trejo. Up to this point, no one on our MTW team has had an ongoing ministry in the area and we are thrilled that the church body is enthusiastic about a pastor who is being trained in reformed teaching! Also, praise the Lord for a house for Vicente and his family and church building provided by a Honduran at almost no cost at all!

Sometimes our highs are extra high and our lows are extra low - this was the case these last few weeks. The same day that pastor Vicente was installed, our team parted ways with pastor Israel. Pastor Israel has a God-given vision that we are excited about, but does not align with where God is leading us as a team at this point.

Prayer Support

- Praise that the church installed Pastor Vicente as head pastor!
- Pastor Israel's future work, ministry, and family in this tough time
- Daneil and Naty's ministry to bear fruit both in the churches in La Ceiba and Costa Rica

We had the joy of Costa Rican friends, Daniel and Naty, coming to visit us for a week just before Easter. We met them while we were in language school several years ago and have kept in touch over time. While they were here, they used their musical gifts to share with our Honduran churches quality Spanish worship music. Daniel also had the opportunity to preach at pastor Vicente's church.
