June 2016

Woman being seen by the doctor in La Fe

Several times each year we are blessed to host teams from the USA. During the month of June, we had two weeks of teams. The first week was a **medical team** who held clinics in the four locations where we have (or have had) church plants: La Fe, Eden, La Trejo and Armenia Bonito. Meeting the physical needs of others is an essential part of our vision to be holistic in ministry - but thankfully a pastor was there to pray alongside each individual as well. We are abundantly grateful for this team of medical personnel as they serve alongside us annually.

The second week was a team of teens and adults who spent the majority of their time with our street children's ministry: The Peter Project. One of the key ingredients that this team brought was the concept of a "prayer chair". At all times, one person from the team would be sitting and praying specifically for the ministry. This led to many questions by the boys in the project as well as some great conversations with them about prayer. Many times you'd here a boy ask, "What is that person doing?" and another boy answer, "Don't bother them. **They are praying for us.**"

Pastor Donaldo with grandson, Kenny

Pastor Donaldo and his wife, Rita, have natural pastoral hearts. They welcome everyone with whom they have contact. Mike has been blessed to work alongside Donaldo in planting a church in Eden; the neighborhood where they live. Praise the Lord that God has lifted up a **church in the US to partner** with this fledgling church plant over the next four years!

Celebrating 90 years of life!

It was with much joy and expectation that Ashley joined her extended family to celebrate the 90th birthdays of her grandparents, John and Lois Kyle. The majority of the 4 generations were able to make it (from all over the world) and the weekend they celebrated together was filled with much laughter and big hugs.
